**FTSE EPRA Nareit Global Real Estate Index Series:**

The FTSE EPRA Nareit Global Real Estate Index Series was launched to reflect the real estate segment and is designed to be used to track, benchmark and analyze this segment at either a broad industry-wide level or on a sector-by-sector basis. This index series includes global listed real estate stocks, which are less correlated to the broader equity market and typically pay consistent dividends, supporting inflation management and long-term total returns.

The indexes are built with and overseen by global real estate industry experts. The index methodology is reviewed regularly by the FTSE EPRA Nareit Global Real Estate Index Series Supervisory and Regional Advisory Committees to advise on the optimal construction and maintenance of the indexes.
